

# EGOR KONYAGIN

## Software Engineer

@ Egor.Konyagin@skoltech.ru

📍 Moscow, Russia

🔗 <https://github.com/ekonyagin/>

## INDUSTRIAL EXPERIENCE

---

### Software Engineer

#### Center of open systems

📅 Jul 2018 – Present

📍 Moscow, Russia

Solving multiple computer vision problems, including:

- development of intelligent video analysis for behavior prediction
- development of infrastructure for city surveillance video cameras
- development of a system for automatic warehouse monitoring (task is to measure the size of delivered items such as boxes or bundles of goods)

## EDUCATION

---

### MSc in Information Science & Technology

#### Skolkovo Institute of Science and Technology (Skoltech)

📅 Sep 2019 – Present

### BSc of applied maths & physics

#### Moscow Institute of Physics & Technology (MIPT)

📅 Sep 2015 – Aug 2019

Extracurricular:

- nvidia DLI workshop with assessment, Munich 2018
- nvidia DLI seminars, San Jose 2019
- coursera Deep Learning course by Andrew Ng, 2018

## PUBLICATIONS

---

- E. Konyagin, N.Fokin Boxes size measurement on the basis of real time video stream processing (MIPT 2019)
- A. Khelvas et al. Adaptive distributed video surveillance system (IEEE EnT Preprint 2019)

## SKILLS

---

- Strong mathematical background. Calculus, numerical linear algebra, differential equations.
- Deep Learning: CNNs, RNNs. TensorFlow and PyTorch.
- Python, C++, Basic knowledge of Unix-like operating systems, Docker
- Data analysis: Pandas, NumPy, scikit-learn, xgboost
- Web-development: Flask, JS, HTML
- Languages: Russian (native), English (fluent), German (basic knowledge)

## TEACHING

---

- Course instructor: *Basics of deep learning and Neural networks*. MIPT, 2019

## HACKATHONS

---

- IBM Hyperledger. Moscow 2018 awardee
- Phystech Genesis CV Hackathon. Moscow 2019 awardee

## HOBBIES

---

- conducted multiple mountain climbing in south Russia, particularly in Caucasus mountains (up to 10 000 feet high)
- conducted 450 miles-long bicycle hiking tour from New York City to Niagara Falls (Aug 2019)
- studied foreign languages (German, Spanish)
- organized multiple times event called UN model (a role game for political education for high school students)
